Agency Strategic Objective(s):

005SO18001: Modernize information technology infrastructure, facilities and support services to improve the customer experience.

Agency Priority Goal(s):

- Briefly describe the investment's return on investment, including benefits internal and external to the government and outcomes achieved or planned.**  
Process automation through Process Robotics aligns to the Secretary's top priority, which is to ensure USDA programs are delivered efficiently, effectively, and with integrity and a focus on customer service. For the OCIO, the Robotics and Automation SMO will help achieve the four goals for OCIO, most notably to "Create an OCIO workforce for the 21st century that is highly skilled, results oriented, customer focused and nimble. True ROI is difficult to establish in an Enterprise Shared Services investment. However, RPA has successfully reduced costs for infrastructure software by negotiating directly with the RPA vendor. Initial software costs were quoted at \$192k and through negotiation was reduced to \$176 – realizing a cost avoidance of \$16K. RPA will continue to manage all hardware and software purchases to ensure the best possible ROI is achieved to secure the lowest possible service rates. Cost savings/avoidance will be reported to the department.
