### Part I: Summary Information and Justification (All Capital Assets)

#### Section A: Overview & General Information

**Date Investment First Submitted:** 2020-09-22  
**Date of Last Change to Activities:** 2021-04-28  
**Investment Auto Submission Date:**  
**Date of Last Investment Detail Update:** 2021-04-28  
**Date of Last Business Case Update:** 2021-04-28  
**Date of Last Revision:** 2021-08-26

**Agency:** 005 - Department of Agriculture      **Bureau:** 55 - Rural Development

- 1. Name of this Investment:** RD-Residential Loans, Grants & Guarantees (RLGG)
- 2. Unique Investment Identifier (UII):** 005-000003410

#### Section B: Investment Detail

- 1. Provide at least one Agency Strategic objective code ([A-11 Section 230](#)) and/or Agency Priority Goal code ([A-11 Section 250](#)) that this investment aligns to on performance.gov. If this investment aligns to more than one Agency strategic objective code and/or Agency Priority goal code list all that apply. If your agency does not report to performance.gov please use "0". This is required for Agency IT Portfolio Summary Part 1 and Part 2 Investments, not for Part 3 Investments.**

Agency Strategic Objective(s):

005SO18288: Expand rural business opportunity and rural quality of life with access to capital; improved infrastructure, broadband access, and connectivity; and support for workforce availability.

Agency Priority Goal(s):

- 2. Briefly describe the investment's return on investment, including benefits internal and external to the government and outcomes achieved or planned.**

The RLGG investment is comprised of over a dozen information systems and applications, which together represents the core technology enabling, performing, and fulfilling over 40 mission critical RD Rural Housing Service (RHS), Rural Utilities Service (RUS), and Rural Business-Cooperative Service (RBCS) residential loan, guarantee, and grant programs. These programs include the single-family housing (SFH) loan, loan guarantee, and grant business mission programs and the services these programs provide to rural residents across the United States. Without the RLGG investment, RD RHS, RUS, and RBCS would not be able to operate its residential programs, deliver the associated loan, guarantee, and grant services. Without the RLGG IT investment, RD would not be able to fulfill its SFH mission. RLGG's life cycle quantitative ROI is incalculable as the cumulative life cycle benefits including the economic benefits of

RD's SFH programs on growing and sustaining SFH in rural communities across the U.S. is incalculable. The qualitative ROI of the RLGG investment is achieved through the successful operation, management, and performance of the RD's RHS, RUS, and RBCS residential loan, guarantee, and grant programs and services. The residential program and services help rural residents to acquire SFH loans, guarantees, and grants in rural communities across the U.S. The residential programs and services are essential to sustaining and promoting the livelihood of rural citizens and the economic prosperity of rural areas and communities. Continued funding of the RLGG investment will allow RD to continue to operate and maintain RLGG systems and applications as well as pursue and implement essential digital transformation and modernization initiatives as the architecture and technologies of the RLGG systems, sub-systems, and application are antiquated, inefficient, and difficult and costly to operate and maintain. The capabilities and benefits of the RLGG investment transformation and modernization initiatives will allow RD to: Deliver more efficient and effective SFH loan, grant, and guaranteed customer-facing technology, services, and value-added data intelligence tools. Enhance the SFH loan, grant, and guaranteed business functions including origination, servicing and monitoring, disposition, and management reporting processes. Improve the efficiency of the workflow - enabling valuable human resources to spend more time serving customers Reduce risk, especially risk to PII related to manual data handling Provide standard decision support to employees to facilitate uniform application of guidelines. Automate paper-based processes Consolidate customer data into a single CRM Improve transparency to customers Synchronize data across systems; Provide dashboards to facilitate reporting. The performance of the RLGG IT investment and the delivery of the planned and actual RLGG outcomes and benefits, as described above, will be captured and reflected in Table D.1, which will demonstrate how the RLGG ROI is being managed, delivered, and realized.

3. **If this investment will result in the elimination or the reduction of another major or non-major investment(s), please complete the following:**

Table I.B.1 Affected Investment Information	
Investment UII	To Be Status
005-000002317	to be eliminated

4. **Does the Investment currently include an intra- or inter-Agency shared service (common, shared, or centralized solution)?:**  
NO
5. **Does the Investment plan to include an Intra- or Inter-Agency shared service that it does not currently include (common, shared, or centralized solution)?:**  
NO
6. **If systems contained in this Investment collect data from the public, please identify the OMB Control Numbers which authorize that data collection as per the Paperwork Reduction Act. Use [Reginfo](#) at the following link to identify information**

collection requests and OMB control numbers. Agencies can work with their Records Officers to determine the applicability.

**7. Provide the name of the Investment-level project manager:**

Cherelle James

**8. Select the qualification/experience level of the Investment-level project manager (select one):**

7 - No certification, but with 4 or more years PM experience (within the last five years)

## Section C: Life Cycle Costs

1. Provide the total estimated life cycle costs for the investment in millions. Note: Do not enter information in the grey cells as these will be calculated.

2.
  - a. In which year did or will this investment begin? (specify year - e.g., PY-1= 2019)  
2020
  - b. In which year will this investment reach the end of its estimated useful life? (specify year - e.g., FY+5 = 2027)  
2030
3. Compare the funding levels for PY and CY to the final FY 2022 President's Budget for those same years. Briefly explain any significant changes. When making comparisons, ensure that you compare same-year-to-same-year (e.g., the FY20 level for 2020 versus the FY21 level for 2020):  
As of September 2020, this is a new Investment.
