On May 23, 2019, Secretary Sonny Perdue announced that the USDA would provide aid to assist farmers impacted by trade disruptions prompted by retaliatory tariffs on their products through the Market Facilitation Program (MFP). On June 29, farmers.gov enabled employees to complete MFP program applications for producers. To date, over 173K applications have been submitted through the portal of which 11,500 are approved. On August 19, the farmers.gov utilized a new automated obligation system enabling seamless payments to customers – which reduced manual entry for employees. Farmers.gov also supported the 2018 Market Facilitation Program and processed more than 661K applications throughout the application period. 1.7M unauthenticated Farmers.gov website front-end page views (not unique) 1M+ Customer Interactions (receipts for service) 2018-2019 Wildfire Hurricane Indemnity Program

(WHIP and WHIP+) Applications In 2018, the Wildfire Hurricane Indemnity Program (WHIP) was announced to provide disaster payments to producers to offset losses from hurricanes and wildfires during 2017. Farmers.gov processed a total of 43,000 WHIP program applications since June 2018. In June 2019, Congress appropriated additional funding in assistance for a range of losses resulting from disasters throughout 2018 and 2019, known as WHIP+. On August 26, 2019, the WHIP+ program application utilized a new automated obligation system enabling seamless payments to customers. Farmers.gov also provides constituents information regarding the WHIP program and other Disaster Programs through the Disaster Assistance Discovery tool. Farm Loans Program View Loans: In April 2019, Farmers.gov launched the ability for FPAC customers to view their farm loan information, history, and payments on their desktop computer or mobile phone. This feature greatly improves the ability of the customer to access their information when and where they need it. Farmers.gov also provides a Farm Loan Discovery Tool to help constituents quickly identify which loan programs might be a good fit. H-2A Farmer Facing Portal: Currently, to submit H-2A visas, producers must engage with multiple agencies in a highly distributed and complicated process. In the future, Farmers.gov will provide a consolidated portal for H-2A visa information and provide producers an end to end H-2A tracking capability improving the producer experience and eliminating the need to contact multiple individual agencies.
